

A R. N I V E D H A

ARCHITECT / UX DESIGN MANAGER

Hello

Design leadership shaped by a multidisciplinary foundation—where architectural thinking meets enterprise-scale UX. Adept at crafting scalable, system-driven design solutions across dashboards, data platforms, mobile, web, and immersive environments. Known for translating complex problem spaces into cohesive, intuitive experiences that bridge user needs with business strategy.

Leads high-performing design teams with a focus on governance, design maturity, and cross-functional alignment—especially in fast-paced, data-driven product environments. Experienced in establishing modular design systems, streamlining user journeys, and embedding storytelling and usability into complex digital ecosystems.

Combines a sharp visual sensibility with system-level thinking—bringing clarity to complexity, mentoring creative teams, and championing design as both a craft and a strategic function that drives lasting impact.
